On May 30th, Friends of the Domaine de Chantilly (FODC) hosted a memorable evening at the French Consulate in New York featuring a lecture by Pierre Rosenberg, member of the French Academy, Honorary President-Director of the Louvre, and leading specialist on Nicolas Poussin.

Consul General Anne-Claire Legendre welcomed guests and spoke highly about Chantilly, one of the finest historic sites in France. Then, FODC Chairman Prince Amyn Aga Khan described the organization’s efforts to restore Chantilly’s castle, gardens, and artworks through the support of patrons from around the world, before introducing Pierre Rosenberg.
During his talk, Mr. Rosenberg highlighted Chantilly's magnificent collection, which includes one of the best ensembles of works by Poussin. Among these is the Massacre of the Innocents, which will be the foundation for a major exhibition this fall: Le Massacre des Innocents de Nicolas Poussin. Poussin Picasso Bacon. After enjoying a fascinating discovery of Poussin's masterpiece, guests were treated to a reception offered by Champagne Laurent-Perrier.

On May 8, 2017, at The Plaza Hotel in New York City, the City of Hope East End Chapter/ Jeanne Kaye League held its annual Spirit of Life luncheon and fashion show. The event attracted more than 425 guests and raised vital funds for City of Hope’s cancer research, treatment and education programs. This year, two of the main sponsors for the event were Aston Martin and Lancôme. An elaborate Flower Wall was donated by The Flower Wall Company and served as a stunning backdrop to many of the Luncheon’s photos.
